SUPERVISE ASBESTOS REMOVAL

This course brochure will inform and guide you through the Master Builders Supervise Asbestos Removal training course. Please read the following information carefully to help you understand all the course requirements and assessments to ensure that it is suitable for your needs.

ABOUT US

Master Builders Association of NSW is a Registered Training Organisation (RTO 6163) registered by the Australian Skills Quality Authority. Master Builders offers nationally recognised qualifications and courses across New South Wales which meet endorsed industry standards. Pathways to qualifications include full training and assessment, assessment towards Recognition of Prior Learning (RPL), gap training and Continuous Professional Development (CPD).

COURSE OVERVIEW

The Supervise Asbestos Removal course offered is designed to train Participants in instructing and monitoring workers on a jobsite to ensure that they are correctly handling, removing and disposing of asbestos containing materials correctly. In NSW, it is a mandatory requirement to hold CPCBC4051A Supervise asbestos removal if you are a supervisor of Class B (non-friable) asbestos removal.

LOCATION AND DURATION

The course is delivered over one day from 8:30am to 4:30pm. Visit <http://skillassessment.com.au/courses> for the latest course information.

Courses are delivered at various MBA Offices (refer to our website for locations) and can also be delivered on-site if suitable areas are available to complete practical assessments.

ENTRY REQUIREMENTS AND PRE-REQUISITES

Prior to commencing this training course participants must:

- Hold a statement of attainment for CPCDE3014A Remove non-friable asbestos **OR** CPCDE3015A Remove friable asbestos
- Be over 18 years of age
- Have a Valid White Card (general construction induction card) issued after September 2009
- Be proficient in spoken and written English, as the assessments must be undertaken in English
- Bring original identification on the morning of the course

COURSE MATERIALS

Participants are not required to bring any materials or purchase specific books to complete this course. A pen and notepad for individual note taking is recommended. Master Builders will provide all course materials, resources and access to PPE (including respirators, gloves, disposable overalls, safety glasses, etc) on the training day.

NATIONALLY RECOGNISED TRAINING

Participants who successfully complete this nationally recognised unit of competency, will be issued a Statement of Attainment for:

- CPCCBC4051A Supervise asbestos removal

COURSE DELIVERY & ASSESSMENT

This unit of competency covers the following topics:

- Plan for asbestos removal
- Prepare site for removal
- Oversee the removal and decontamination process
- Supervise and support team members
- Supervise testing, compliance and documentation in consultation with the licensed asbestos assessor and the licensed asbestos removalist

This course is delivered and assessed face-to-face in a classroom with:

- Written assessments including a knowledge questionnaire consisting of short answer questions to be completed individually by the participant to obtain evidence of underpinning knowledge needed to instruct and monitor workers performing asbestos removal activities at a competent level.
- Practical assessment conducted one-on-one or in a small group. Where a small group is assessed, the assessor will ensure all aspects of assessment are clearly assessed for each participant in the group (this may involve tasks being completed more than once to ensure each participant is competent).
- Participants will also be assessed on their observable behaviour including oral questions to assess technical criteria relevant to techniques required for this unit of competency.

Participants are provided with a briefing of what is required to successfully complete the assessment; to ensure they are completely aware of the conduct of assessment as well as the required skills, knowledge and behaviour the assessor is looking for within the assessment.

Participants are offered multiple opportunities to demonstrate knowledge and skills throughout the program. At the completion of all the assessment tasks the participant will be provided feedback on their abilities and responses.

CERTIFICATION

If a participant is assessed as 'Competent' in this unit of competency, they will progress to the Master Builders certification process for the Statement of Attainment of CPCCBC4051A Supervise asbestos removal as described in the Participant Handbook.

If a participant is assessed as 'Not Yet Competent' in this unit of competency they will not receive a Statement. They are invited to re-enroll into this course again any time, at the full course fee.

FEES AND CHARGES

Information about Master Builders fees, charges, refunds and withdrawals is provided in the Participant Handbook which is available on our website. The fee for this one day course is:

- \$399 per person for Master Builders Members
- \$499 per person for Non-Members

All fees are GST exempt.

CLOTHING REQUIREMENTS

Whilst undertaking this course, participants must wear closed footwear and appropriate clothing suitable for a work environment (no thongs, singlets, shorts etc).

UNIQUE STUDENT IDENTIFIER (USI)

Any person undertaking nationally recognised training in Australia is required to have a Unique Student Identifier (USI). Master Builders cannot issue a Certificate or Statement of Attainment to a participant who does not have a USI. Master Builders will request the participant creates their USI prior to course commencement. If this is not possible Master Builders have facilities at their training centres for the participant to create their USI prior to course commencement with the assistance of Master Builders' staff. For further information on the USI please refer to our website or Participant Handbook.
